subject of this	

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

They got a big increase last year and I don't believe that another big increase this year is needed. If I could see improvement in water condition maybe. But I still have awful tasting water and have discolored water in my toilet. I didn't really say anything about last years increase because I thought that the service would get better. But like I have already stated that didn't happen. Where is the extra money from last years increase going? Apparently not to help with the quality of the water.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

I can't promise I will be there. If I am able to be there I will be happy to.
